SURGICAL CONSENT FORM PLEASE READ WHAT YOU ARE SIGNING

THE FOLLOWING PREANESTHETIC SURGICAL SERVICES ARE RECOMMENDED BY OUR DOCTORS. THEY ARE OPTIONAL AND AVAILABLE FOR ADDITIONAL CHARGES AS LISTED BELOW.

Your pet is scheduled for a procedure that requires the use of an anesthetic. There is an inherent risk with any anesthetic episode. In order to minimize risk to your pet we recommend that all patients that are being admitted for anesthetic procedure have a pre-anesthetic blood screening. These tests allow us to detect many pre-existing conditions that may not be evident on a physical exam, that may lead to complications with anesthesia. These tests will help detect the presence of conditions such as dehydration, anemia, infection, diabetes and/or kidney, liver disease, or electrolyte imbalances which complicate an anesthetic procedure. We will be glad to run these test prior to surgery.

I would like the pre-anesthetic bloodwork prior to surgery.

The additional fee is \$77.50

Yes _____ No _____ Initial _____

We now offer LASER Surgery. The benefits include decreased post op pain, less bleeding, less swelling, and quicker recovery. We strongly recommend LASER surgery.
