

Westmoreland & Slappey Animal Hospital, LLC

SURGICAL CONSENT FORM PLEASE READ WHAT YOU ARE SIGNING

The following pre anesthetic surgical services are recommended by our doctors. They are **OPTIONAL** and available for additional charges as listed below.

- Your pet is scheduled for a procedure that requires the use of an anesthetic. There is an inherent risk with any anesthetic episode. In order to minimize risk of your pet we recommend that all patients that are being admitted for anesthetic procedure have a pre anesthetic blood screening. These tests allow us to detect many pre-existing conditions that may not be evident on a physical exam; that may lead to complications with anesthesia. These tests will help detect the presence of conditions such as dehydration, anemia, infection, diabetes, and/or kidney, liver disease, or electrolyte imbalances which complicate an anesthetic procedure. We will be glad to run these tests prior to surgery.

I would like the pre anesthetic bloodwork prior to surgery

The additional fee is **\$137.50**

Yes _____ No _____ Initial _____

- We now offer **LASER** surgery. The benefits include decreased post op pain, less bleeding, less swelling, and quicker recovery time. We strongly recommend laser surgery. The additional cost is **\$51.75**. We require all ear trims and declaw surgeries be performed with laser. Prices for ear trim and declaw surgeries included laser and post-op pain fees.

I would like Laser surgery performed on my pet.

Yes _____ No _____ Initial _____

- We recommend all pets be microchipped. The cost is **\$54.50**. There is no additional charge to register your pet.

I would like my pet to be microchipped.
